## Article 19

### Signs

#### Section 19.01 Intent

This article is intended to regulate signs and to minimize outdoor advertising in order to protect public safety, health and welfare; minimize abundance and size of signs to reduce visual clutter, motorist distraction, and loss of visibility; promote public convenience; preserve property values; and enhance the aesthetic appearance and quality of life of the community. The requirements contained herein are intended to be content neutral. The following objectives are accomplished by establishing the minimum amount of regulations necessary concerning the size, placement, construction, illumination, and other aspects of signs in the county and cities in order to:

- (a) Preserve, protect and promote public health, safety and welfare.
- (b) Protect the public right to receive messages, including religious, political, economic, social, philosophical and other types of information protected by the First Amendment of the U.S. Constitution.
- (c) Recognize that the proliferation of signs is unduly distracting to motorists and non-motorized travelers, reduces the effectiveness of signs directing and warning the public, causes confusion, reduces desired uniform traffic flow, and creates potential for crashes.
- (d) Maintain and enhance the physical appearance of the community by encouraging signs of consistent size which are compatible with and complementary to related buildings and uses, and harmonious with their surroundings.
- (e) Recognize that the principal intent of commercial signs, to meet the purpose of these requirements and serve the public interest, should be for identification of an establishment on the premises, and not for advertising special events, brand names or off-premise activities, as these can be advertised more appropriately by other methods.
- (f) Eliminate potential conflicts between business signs and traffic control signs, thereby minimizing the potential for confusion and hazardous consequences.
- (g) Enable the public to locate goods, services and facilities without undue difficulty and confusion by restricting the number and placement of signs.
- (h) Prevent placement of signs which will conceal or obscure signs of adjacent uses.
- (i) Prevent off-premise signs from conflicting with other land uses.
- (j) Protect the general public from damage and injury, that may be caused by the faulty and uncontrolled construction and use of signs within the City.
- (k) Prohibit portable commercial signs and limit temporary signs in recognition of their significant negative impact on traffic safety and aesthetics.

#### Section 19.02 Scope of Requirements

A sign shall not hereafter be erected, re-erected, constructed, altered or maintained without receiving the proper sign permit, except as provided by this section.

**Section 19.03 Signs Not Requiring Permit**

A sign of the following type shall be permitted without the issuance of a sign permit, subject to all other requirements of this Article:

- (a) **Government Signs.** Public signs and other signs incidental to those signs for identification, information or directional purposes erected or required by governmental bodies, or authorized for a public purpose by any law, statute or ordinance.
- (b) **Railroad Crossing & Utility Signs.** Railroad crossing and signs of public utility companies indicating danger or that serve as an aid to public safety or that show the location of underground facilities.
- (c) **Street Address Signs.** Street address signs up to four (4) square feet in area.
- (d) **Decorative Signs.** Decorations temporarily displayed in connection with a City-sponsored or approved event or a generally recognized or national holiday.
- (e) **Residential Temporary Signs.** Temporary signs at a residence commemorating a personal event, such as a birth, birthday, anniversary or graduation.
- (f) **"No Trespassing" Signs.** "No trespassing" or similar signs regulating the use of property, provided such signs are no more than two (2) square feet in area.
- (g) **Flags.** Noncommercial flags of any country, State or unit of local government. Flags provided there shall be no more than three (3) flags per lot, the maximum size of each flag shall be 50 square feet, and the flag poles comply with height limitations of Section 15.04.
- (h) **Political & Noncommercial Signs.** Political signs and noncommercial signs, provided that total area of all such signs together may not exceed a maximum area of twelve (12) square feet per lot. Political and noncommercial signs may not be placed in the public right-of-way.
- (i) **Memorial Signs.** Memorial signs and tablets, names of buildings and date of erection when cut into masonry surface or inlaid so as to be part of the building or when constructed of bronze or other noncombustible material.
- (j) **"Help Wanted" Signs.** "Help wanted" signs up to two (2) square feet in area. The "help wanted" sign text must be the predominant text on the sign. Help wanted signs may only be located on a window or door.
- (k) **Public Notice Signs.** Public notice signs are permitted on property that is the subject of a public meeting or hearing. Such signs may not exceed nine (9) square feet in area or six (6) feet in height.
- (l) **Vehicle Signs.** Vehicle signs are allowed when the vehicle to which the sign is attached is licensed, insured, and operational. The vehicle must be used for the operation of the business and may not remain stationary for an extended period of time for the purpose of attracting attention to a business.
- (m) **Temporary Signs.** Temporary signs shall be permitted provided they are setback a minimum of ten (10) feet from the public right-of-way or any lot line and in accordance with table 19.03/
- (n) **Public Signs.** Public signs, including the authorized signs of a government body or public utility, including traffic signs, legal notices, railroad crossing signs, warnings of a hazard, and similar signs.

- (d) Electronic changeable message signs shall not exceed the following illuminative brightness:

Time of Day	Brightness	
	Within 500 feet of residential district or use	At least 500 feet from residential district or use
Night time	500 nits (cd/m <sup>2</sup> )	1250 nits (cd/m <sup>2</sup> )
Day time	3,500 nits (cd/m <sup>2</sup> )	5,000 nits (cd/m <sup>2</sup> )

- (e) The message on an electronic changeable message sign shall remain static a minimum of twenty (20) seconds and shall not take longer than one (1) second to change. If the sign is within 500 feet of a residential use or zoning district, the message shall remain static from dusk until dawn.
  - (f) Electronic changeable message signs shall not contain any moving, blinking, flashing, scrolling or animated parts nor have the appearance of having any movement or animation. Only static messages shall be displayed. The lettering and/or message components being displayed at any given time shall not change, flash or fade to another color. The changeable message sign shall have a default design that will freeze the sign in a dark or blank position if a malfunction occurs.
  - (g) Conversion of an existing sign to a changeable message signs shall require a permit under this article. Electronic changeable message signs may not be added to a nonconforming sign.
- (6) **Wiring.** Underground wiring shall be required for all illuminated signs not attached to a building.
- (e) **Construction Requirements.** The following construction requirements apply to all permanent signs.
- (1) **Fastenings.** All signs must be erected in such a manner and with such materials to remain safe and secure during the period of use and all bolts, cables, and other parts of such signs shall be kept painted and free from corrosion. No sign may be placed upon a tree or utility pole, except signs of a unit of government or utility.
  - (2) **Support Location.** No pole, cable or support of any nature shall be placed on any publicly owned property, road right-of-way, or proposed road right-of-way.
  - (3) **Sign Safety**
    - a. All signs erected, constructed, reconstructed, altered or moved shall be constructed in such a manner and of such materials so that they shall be able to withstand wind pressure of at least 20 pounds per square foot.
    - b. All signs shall be erected so that any part including cables, guys, etc. shall have a minimum clearance of four (4) feet from any electrical conductor, electric light pole, road lamp, traffic light, or other public utility pole or standard.
    - c. All signs shall be designed to comply with minimum wind pressure and other requirements set forth in the adopted building code. Signs with electrical connections shall comply with electrical code requirements, including the application, inspection, and approval of an electrical permit.
  - (4) **Safety Triangle.** No sign shall be located within, project into, or overhang the triangular area formed at the intersection of any two road right-of-way lines or a driveway approach, as required by section 15.06.

## Signs

### Section 19.07 Sign permits

- (a) A sign permit shall be required prior to installing, changing the height, increasing the area or structurally altering any sign for which a permit is required. Before such a permit is issued, an inspection shall be made to determine that the sign location complies with the provisions of this article.
- (b) As a condition to approval of a sign permit, all signs to be located along state road right-of-way shall obtain the proper state sign permit or written non-objection from the Indiana Department of Transportation, and a copy shall be provided to the enforcement official.
- (c) For an off-premise sign, written consent of the property's owner or legal representative shall be submitted with the application for a sign permit.
- (d) The sign permit shall be valid for a period of 90 days. The sign must be installed within that time period or the permit shall expire, provided the enforcement official may grant an extension for an additional 90 days. When a sign permit is issued in connection with an improvement location permit for a structure on the site, the sign permit shall run concurrent with the improvement location permit.
- (e) No permit shall be required for ordinary servicing or repainting of an existing sign message, cleaning of a sign, or changing the message on the sign where the sign is designed for such changes (such as lettering on a marquee or numbers on a gasoline price sign). Furthermore, a permit shall not be required for signs which are stated as being allowable without a permit.

### Section 19.08 Application Procedure

- (a) **Application Form.** Application for a permit for a sign shall be filed with the enforcement official and shall provide the following information:
  - (1) Name, address, and telephone number of the applicant.
  - (2) Location of the building, structure, or lot on which the sign is to be attached or erected.
  - (3) Position of the sign in relation to buildings, structures, and property lines within 100 feet of the proposed sign.
  - (4) Plans showing the dimensions, materials, method of construction, and attachment to the building or in the ground.
  - (5) Copies of stress sheets and calculations, if deemed necessary, showing the structure as designed for dead load and wind pressure.
  - (6) Name and address of the person, firm, or corporation owning, erecting, and maintaining the sign.
  - (7) Information concerning required electrical connections.
  - (8) Written consent of the owner or lessee of the premises upon which the sign is to be erected.
  - (9) Other information required by the enforcement official to make the determination that the sign is in compliance with all applicable laws and regulations.
- (b) **Application Review**
  - (1) **Location Improvement Permit Review.** All locations for placement of a sign submitted in conjunction with the proposed construction of a new building or addition to an existing building shall be reviewed as a part of the required location improvement permit review. The location, size and height of all existing and proposed signs must be shown on the site plan.

- (2) **Enforcement official Review.** The enforcement official shall review the sign permit application for any sign proposed on a site or existing building where no other new construction is proposed.
- (3) **Issuance of a Permit.** Following review and approval of a sign application, the enforcement official shall have the authority to issue a sign permit upon payment by the applicant of the required fees.
- (4) **Denial of a Permit.** The enforcement official shall deny the application for any sign that does not comply with the requirements of this article.

### Section 19.09 Sign Inspection and Maintenance

#### (a) Sign Inspection

- (1) **Responsibility for Compliance.** The owner of any property on which a sign is located is declared to be responsible for the permit, erection, inspection, safety, condition, and removal of a sign.
- (2) **Inspection of New Signs.** All signs for which a permit has been issued shall be inspected by the enforcement official when erected. Approval shall be granted only if the sign has been constructed in compliance with the approved plans and applicable requirements of other ordinances and codes.
- (3) **Inspection before Enclosure.** In cases where fastenings or anchorages are to be eventually bricked in or otherwise enclosed, the sign erector shall advise the enforcement official when such fastenings are to be installed so that inspection may be completed before enclosure.
- (4) **Inspection of Existing Signs.** The enforcement official may, at such times as deemed necessary, inspect any sign allowed under this section, and if upon inspection a sign is found to be unsafe or in a condition that does not comply with all the provisions of this section, the enforcement official shall give notice of that condition to the owner of the sign and cause the necessary repairs or alterations to be made, or require removal of the sign.

#### (b) Sign Maintenance

- (1) **Maintenance of Signs.** All signs for which a permit is required, and all supports therefore shall:
  - a. Be kept in compliance with the plans and specifications filed and approved for issuance of the construction permit.
  - b. Be kept and maintained in a safe condition, consistent with adopted building and mechanical codes.
  - c. At all times conform to all the provisions of this article.
- (2) **Correction of Defects.** If the enforcement official finds that any sign is unsafe, insecure, improperly constructed, or poorly maintained, the owner of the sign shall make the sign safe and secure by completing any necessary reconstruction or repairs, or entirely remove the sign in accordance with the timetable established by the enforcement official. Existing signs determined to be unsafe and an immediate hazard to health or safety shall be removed or repaired within 12 hours of notification.

#### (c) Obsolete Signs.

- (1) Signs which are no longer functional, in disrepair, or are abandoned for more than 60 days, shall be removed, at the expense of the property owner on which the sign is located, within 30 days following notice of non-compliance. The owner shall be notified by certified mail.

## Signs

- (2) A sign which no longer identifies a use, product, business or entity located on the property, but is otherwise in conformity with the other provisions of this ordinance, may remain in place if the sign face is completely covered or obscured by a blank panel attached within the frame of the sign. In such case, the sign shall be permitted to remain for a period not to exceed 120 days. Following expiration of the 120 days, the sign shall be removed, unless identifying a new use, product, business or entity located on the property.

### (d) Legal Nonconforming Signs

- (1) **Status.** Any sign lawfully existing at the time of the adoption of this article that does not fully comply with all provisions of this ordinance shall be considered a legal nonconforming sign and may be permitted to remain as long as the sign is properly maintained and not detrimental to the health, safety and welfare of the community, except as herein provided.
- (2) **Continuance.** The nonconforming sign may continue as long as it is not destroyed, abandoned, or discontinued under 19.09(c) above. A sign damaged in excess of 60% of its replacement cost is considered destroyed and shall be removed by the property owner. If the sign is not removed, the county or city may remove the sign.
- (3) **Restrictions.** A nonconforming sign shall not be altered or reconstructed, unless the alteration or reconstruction is in compliance with the provisions of this article. For the purpose of this article only, the terms "altered" or "reconstructed" shall not include any of the following:
  - a. Normal maintenance.
  - b. Changing of surface sign space to a lesser or equal area.
  - c. Ornamental molding, frames, trellises, or ornamental features or landscaping below the base line.
  - d. The addition, construction, installation, or changing of electrical wiring or electrical devices.
  - e. Changing backgrounds, letters, figures, or characters, or other embellishments.
- (4) **Repairs and Maintenance.** Normal maintenance shall be allowed, provided that any nonconforming sign that is destroyed by any means to an extent greater than 60% of the sign's replacement value, exclusive of the foundation, shall not be reconstructed. Normal maintenance shall include painting of chipped or faded signs; replacement of faded or damaged surface panels; or repair or replacement of electrical wiring or electrical devices.
- (5) **Nonconforming Changeable Copy Signs.** The message on a nonconforming changeable copy sign or nonconforming bulletin board sign may be changed provided that the change does not create any greater nonconformity. Conversion of a nonconforming sign to an electronic changeable message sign shall not be permitted.
- (6) **Substitution.** A nonconforming sign may not be replaced with another nonconforming sign. Any subsequent sign must comply with all provisions of this ordinance.

### Section 19.10 Fees

Any application for a sign permit or other request for action pursuant to the regulations set forth in this Article shall be subject to and accompanied by a fee as established by the legislative body. Such fees shall be collected in advance of any application review, inspection, or issuance of any permit or approval. Upon notification of deficient payment of fees, the enforcement official shall cause any permits to be suspended and reject applications for new permits directly associated with the request.
