What is the citizens police academy?

Police agencies have formed Citizen Police Academy programs to create an expansion of their community based efforts. These programs are intended to open the lines of communication between the Community and the Police Department.

To the Citizen, it may frequently appear that the police are not doing their job or are exceeding their boundaries. By allowing citizens a firsthand look at what rules, regulations and policies the police follow, some of these misunderstandings may be alleviated.

The objective of the Citizen Police Academy is to **produce informed citizens**. The Citizens and Police Officers meet each other face to face in a neutral, friendly, interactive setting and each becomes a person to the other. In the past, citizens have simply seen a uniform. Now they have an understanding about the person behind the badge.

The Citizens Police Academy program operates on the premise that informed and educated citizens will be more supportive of the police officers and the department, and will be more productive within their own neighborhoods and communities.

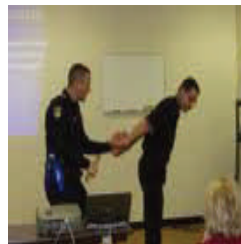

The Citizens Police Academy does not train an individual to become a full-time sworn police officer nor a reserve police officer. The LaPorte Police Department has separate programs and application policies for citizens who wish to serve the community in these capacities.

Course Objectives

The Citizens Police Academy is designed to build a bond of mutual trust and respect between the police department and our neighborhoods.

The academy highlights the importance of citizen participation in public safety, so that we as a community may remain free from the fear of crime.

Academy students will gather information while being given the opportunity to get a behind-the-scenes look at various functions within the police department.

Class Topics

Experienced police officers, instructors, and guest speakers from the community offer lecture, demonstrations, hands-on experiences, tours and engage in frank discussions about police operations with class participants.

Topics covered in class include overviews of our department structure, information on police recruiting and training, and hands-on experiences in various areas.

Other areas included, but not limited to are:

- Criminal Investigations
- Evidence collection
- Criminal law & enforcement
- Traffic law—OWI & enforcement
- K-9 unit
- Bike patrol
- Firearms training/ range time
- Home & personal safety
- Patrol Operations/ officer ride-along
